

# BlackMusic, BlackWork Exhibition Sponsorship

BlackMusic, BlackWork is a dynamic history of organizing in the arts that spans the founding of the Black musicians union Local 767 in the 1920s to the contemporary struggles of working musicians who understand the transformative power of art and culture.

**Your tax-deductible donation will help us raise our goal of \$40,000 in proceeds to be used to present this powerful exhibit on music and labor for Black History Month in February 2017.**
